

LIFESTYLE ROLLER SHADES

Clutch Control

Installation Instructions

Section 1 - Clutch Control Open Roll
Section 2 - Clutch Control with Deco Fascia

GETTING STARTED

Make sure you have all of the parts and tools required to install your shades.

Tools:

- Measuring Tape
- Power Drill
- #2 Phillips Screwdriver or
- $\frac{1}{4}$ " Hex Head

General Parts to Install Your Shade:

Installation Brackets

Screws

Bearing Pin

Chain Stops

Safety Tension Device

Bracket Cover
(Outside mounted only)

Screw Covers
(Outside mounted only)

Deco Fascia Installation Parts (supplied if Deco Fascia was ordered):

Deco Fascia

Magnet Deco
Fascia L-Bracket w/
Magnet Clip

Outside Mount
Brackets
(if ordered)

Plastic/Metal
Returns
(if ordered)

Corner Pieces
(Outside mount
only)

Note: Deco Fascia will arrive with Magnet Clip pre-attached to the backside

SECTION 1

CLUTCH CONTROL SHADE - OPEN ROLL

If your shades were ordered with Deco Fascia, proceed to Section 2

STEP 1**INSTALLATION BRACKET PLACEMENT**

Using the Drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

**STEP 2****SHADE PLACEMENT**

Once the brackets are secured and level, locate the Bearing Pin from the parts sent with your shade. Insert the Bearing Pin on to the non-chain side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the non-chain side of the shade into the Bearing Pin (as shown)

Insert the opposite end of the shade onto the bracket as shown.

STEP 3**ADDITIONAL ITEMS**

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.

**STEP 4****SET THE LIMITS**

To set the Upper Limit of the shade, simply pull the back chain until the desired up position is reached. Snap the Chain Stop to the bead just below the clutch as shown.

To set the Lower Limit of the shade, simply pull the front chain until the desired lowered position is reached. Snap the Chain Stop to the bead just below the clutch as shown.

STEP 5**SAFETY TENSION DEVICE**

Your roller shade was produced with an ANSI compliant safety tension device attached to the bead chain. This device must be securely mounted before the shade will operate properly.

- Slide the device to the bottom of the bead chain.
- Pull the device down until the bead chain is fully tensioned.
- Mark the screw hole location and secure in place.

SECTION 2

CLUTCH CONTROL SHADE - WITH DECO FASCIA

If your shades were ordered Open Roll, refer back to Section 1

STEP 1

DECO FASCIA BRACKET INSTALLATION

INSIDE MOUNT

(Typical installation)

Locate the deco fascia L-brackets and attach them to the magnet clips located on the backside of the deco fascia.

The magnet clips arrive preattached and evenly spaced but can be adjusted if they have shifted during shipping.

Place the deco fascia in the opening positioning it so it is flush with the frontside of the window frame.

Using a drill, secure the deco fascia L-brackets with the supplied screws.

Be sure to check that they are level.

Remove the deco fascia from the opening and move on to shade bracket installation.

OUTSIDE MOUNT

(Requires T-Bracket Installation)

Using the magnet clips attached to the backside of the deco fascia as your guide, mark where the magnet deco fascia T-bracket will need to be installed.

Using a drill secure the white plastic outside mount T-bracket (shown) to the opening. Be sure to check that they are level.

Move on to shade bracket installation.

STEP 2

SHADE BRACKET INSTALLATION

Using the Drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the screw covers on to the bracket for a finished look.

STEP 3

SHADE PLACEMENT

Once the brackets are secured and level, locate the Bearing Pin from the parts sent with your shade. Insert the Bearing Pin on to the non-chain side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the non-chain side of the shade into the Bearing Pin (as shown)

STEP 4

SET THE LIMITS

To set the Upper Limit of the shade, pull the back chain until the desired up position is reached. Snap the Chain Stop to the bead just below the clutch as shown.

To set the Lower Limit of the shade, pull the front chain until the desired lowered position is reached. Snap the Chain Stop to the bead just below the clutch as shown.

STEP 5

SAFETY TENSION DEVICE

Your roller shade was produced with an ANSI compliant safety tension device attached to the bead chain. This device must be securely mounted before the shade will operate properly.

- Slide the device to the bottom of the bead chain.
- Pull the device down until the bead chain is fully tensioned.
- Mark the screw hole location and secure in place.

STEP 6

DECORATIVE FASCIA INSTALLATION

INSIDE MOUNT

Re-attach the deco fascia onto the magnet catch plate on the already installed. Adjust for light gaps if needed.

OUTSIDE MOUNT (if ordered)

Use the white plastic L-Bracket (shown) and insert at the top of the fascia (as shown). Push in lightly to turn the Installation Bracket on a 90° angle until it is secured (facing up as shown). Slide the L bracket on to the already installed T-Bracket.

Plastic return installation

Metal return installation

- Plastic returns simply snap on the end of the fascia (inside mount shade with outside mounted fascia)
- Metal returns will include a plastic corner connector (outside mount only)

TROUBLESHOOTING

Shade is rolling up on tube unevenly or tracks:

If you notice the material winds unevenly and begins to track or telescope to one side check to ensure that the shade is level. If the shade is not level, remove it from the mounting brackets and shim or reinstall the brackets, as necessary.

IMPORTANT NOTE: Operating a shade that is not level will result in damage to the material. Damage caused by operating an unleveled shade is not covered under our normal warranty.

⚠ WARNING

LIFESTYLE ROLLER SHADES

Cordless Operated Shade

Installation Instructions

Section 1 - Cordless Operated Open Roll
Section 2 - Cordless Operated with Deco Fascia

GETTING STARTED

Make sure you have all of the parts and tools required to install your shades.

Tools:

- Measuring Tape
- Power Drill
- #2 Phillips Screwdriver or
- 1/4" Hex Head

DO NOT REMOVE RED CLIP
It will fall off when shade is installed

General Parts to Install Your Shade:

**DO NOT REMOVE
Red Clip**

Installation Brackets

Screws

Bearing Pin (Hex)

Bracket Cover
(Outside mounted only)

Screw Covers
(Outside mounted only)

Deco Fascia Installation Parts (supplied if Deco Fascia was ordered):

Deco Fascia

Magnet Deco
Fascia L-Bracket w/
Magnet Clip

Outside Mount
Brackets
(if ordered)

Plastic/Metal
Returns
(if ordered)

Corner Pieces
(Outside mount
only)

Note: Deco Fascia will arrive with Magnet Clip pre-attached to the backside

Contoured Valance Installation Parts (supplied only if optional items were ordered):

Contoured
Valance

Installation Brackets

Outside Mount
Brackets
(if ordered)

Corner Connectors
(if ordered)

SECTION 1

CORDLESS OPERATED SHADE - OPEN ROLL

If your shades were ordered with Deco Fascia, proceed to Section 2

STEP 1**INSTALLATION BRACKET PLACEMENT**

Using the drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as outside mount, attach the supplied screw covers on to the bracket for a finished look.

**STEP 2****SHADE PLACEMENT**

Once the brackets are secured and level, locate the bearing pin from the parts sent with your shade. Insert the bearing pin on to the right side installation bracket (as shown). You should hear a click once it is securely installed.

Grab the second bearing pin and insert onto left side clutch opening (as shown).

Grab the roller shade and insert the right side of the shade into the bearing pin (as shown)

Insert the opposite end of the shade onto the bracket as shown.

THE RED PLASTIC TENSION HOLDER WILL DISENGAGE ONCE THE BRACKET HAS BEEN INSTALLED.

STEP 3

ADDITIONAL ITEMS

If your shade was ordered as outside mount, locate the bracket covers and install them onto the installation brackets as shown.

STEP 4

OPERATING INSTRUCTIONS

Pull the shade from the bottom handle and let go to lock it into the desired length.

STEP 5

ADJUSTING TENSION

Your cordless shade was produced with the limits already set. If you need to change or adjust this at any time, please follow the steps below:

To lower tension or speed, turn the left side wheel towards the back of the shade.

To add tension or speed, turn the left side wheel towards the front of the shade while holding the bottom rail

To shorten the length of the shade, turn the right side wheel towards the front of the shade.

To lengthen the shade, turn the right side wheel towards the back of the shade.

SECTION 2

CORDLESS OPERATED SHADE - WITH DECO FASCIA

If your shades were ordered Open Roll, refer back to Section 1

STEP 1

DECO FASCIA BRACKET INSTALLATION

INSIDE MOUNT

(Typical installation)

Locate the deco fascia L-brackets and attach them to the magnet clips located on the backside of the deco fascia.

The magnet clips arrive preattached and evenly spaced but can be adjusted if they have shifted during shipping.

Place the deco fascia in the opening positioning it so it is flush with the frontside of the window frame.

Using a drill, secure the deco fascia L-brackets with the supplied screws.

Be sure to check that they are level.

Remove the deco fascia from the opening and move on to shade bracket installation.

OUTSIDE MOUNT

(Requires T-Bracket Installation)

Using the magnet clips attached to the backside of the deco fascia as your guide, mark where the magnet deco fascia T-bracket will need to be installed.

Using a drill secure the white plastic outside mount T-bracket (shown) to the opening. Be sure to check that they are level.

Move on to shade bracket installation.

STEP 2**INSTALLATION BRACKET PLACEMENT**

Using the drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

**STEP 3****SHADE PLACEMENT**

Once the brackets are secured and level, locate the bearing pin from the parts sent with your shade. Insert the bearing pin on to the right side installation bracket (as shown). You should hear a click once it is securely installed.

Grab the second bearing pin and insert onto left side clutch opening (as shown).

Grab the roller shade and insert the right side of the shade into the bearing pin (as shown).

Insert the opposite end of the shade onto the bracket as shown.

THE RED PLASTIC TENSION HOLDER WILL DISENGAGE ONCE THE BRACKET HAS BEEN INSTALLED.

STEP 4

OPERATING INSTRUCTIONS

Pull the shade from the bottom handle and let go to lock it into the desired length.

**STEP 5**

ADJUSTING TENSION

Your cordless shade was produced with the limits already set. If you need to change or adjust this at any time, please follow the steps below:

To lower tension or speed, turn the left side wheel towards the back of the shade.

To add tension or speed, turn the left side wheel towards the front of the shade while holding the bottom rail.

To shorten the length of the shade, turn the right side wheel towards the front of the shade.

To lengthen the shade, turn the right side wheel towards the back of the shade.

Right Side

STEP 6

DECO FASCIA INSTALLATION

INSIDE MOUNT

Inside mounted deco fascia can be installed by placing the magnet receiver (already attached) onto the magnet catch plates on the front of the installed brackets.

OUTSIDE MOUNT (if ordered)

Use the white plastic L-bracket (shown) and insert at the top of the fascia (as shown). Push in lightly to turn the installation bracket on a 90° angle until is secured (facing up as shown). Slide the L-bracket on to the already installed T-bracket.

OUTSIDE MOUNT (if ordered)

Attach the return with the supplied connector.

- Plastic returns simply snap on the end of the fascia
(inside mount shade with outside mounted fascia)
- Metal returns will include a plastic corner connector (outside mount only)

Plastic return installation

Metal return installation

TROUBLESHOOTING

Shade is rolling up on tube unevenly or tracks:

If you notice the material winds unevenly and begins to track or telescope to one side check to ensure that the shade is level. If the shade is not level, remove it from the mounting brackets and shim or reinstall the brackets, as necessary.

IMPORTANT NOTE: Operating a shade that is not level will result in damage to the material. Damage caused by operating an unleveled shade is not covered under our normal warranty.

SECTION 1

WAND MOTOR OPERATED SHADE - OPEN ROLL

If your shades were ordered with Deco Fascia, proceed to Section 2

STEP 1**INSTALLATION BRACKET PLACEMENT**

Using the Drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

**STEP 2****SHADE PLACEMENT**

Once the brackets are secured and level, locate the Bearing Pin from the parts sent with your shade. Insert the Bearing Pin on to the non-control side installation bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the non-control side of the shade into the Bearing Pin (as shown).

Insert the opposite end of the shade onto the installation bracket (as shown).

**STEP 3****ADDITIONAL ITEMS**

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.

Proceed to Programming Instructions at the end of this guide

SECTION 2

WAND MOTOR OPERATED SHADE
WITH DECO FASCIA

If your shades were ordered Open Roll, refer back to Section 1

STEP 1

DECO FASCIA BRACKET INSTALLATION

INSIDE MOUNT

(Typical installation)

Locate the deco fascia L-brackets and attach them to the magnet clips located on the backside of the deco fascia.

The magnet clips arrive preattached and evenly spaced but can be adjusted if they have shifted during shipping.

Place the deco fascia in the opening positioning it so it is flush with the frontside of the window frame.

Using a drill, secure the deco fascia L-brackets with the supplied screws.

Be sure to check that they are level.

Remove the deco fascia from the opening and move on to shade bracket installation.

OUTSIDE MOUNT

(Requires T-Bracket Installation)

Using the magnet clips attached to the backside of the deco fascia as your guide, mark where the magnet deco fascia T-bracket will need to be installed.

Using a drill secure the white plastic outside mount T-bracket (shown) to the opening. Be sure to check that they are level.

Move on to shade bracket installation.

STEP 2**INSTALLATION BRACKET PLACEMENT**

Using the drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

**STEP 3****SHADE PLACEMENT**

Once the brackets are secured and level, locate the Bearing Pin from the parts sent with your shade. Insert the Bearing Pin on to the non-control side installation bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the non-control side of the shade into the Bearing Pin (as shown).

Insert the opposite end of the shade onto the installation bracket (as shown).

STEP 4

DECO FASCIA INSTALLATION

INSIDE MOUNT

Inside mounted deco fascia can be installed by placing the magnet receiver (already attached) onto the magnet catch plates on the front of the installed brackets.

OUTSIDE MOUNT (if ordered)

Use the white plastic L-bracket (shown) and insert at the top of the fascia (as shown). Push in lightly to turn the installation bracket on a 90° angle until is secured (facing up as shown). Slide the L-bracket on to the already installed T-bracket.

OUTSIDE MOUNT (if ordered)

Attach the return with the supplied connector.

- Plastic returns simply snap on the end of the fascia
(inside mount shade with outside mounted fascia)
- Metal returns will include a plastic corner connector
(outside mount only)

Plastic return installation

Metal return installation

PROGRAMMING INSTRUCTIONS

Your motorized shade has come to you with limit sets. If you need to change/adjust the limits, please use the following instructions.

SETTING LOWER LIMIT:

Pull and hold the wand until the shade has reached the bottom limit. If the shade moves in the opposite direction release the wand and pull and hold again.

Adjust until the desired bottom limit has been reached.

Save the position by pushing the button until the shade moves up and down.

THE LOWER LIMIT IS NOW SET.
Continue to next page.

SETTING UPPER LIMIT:

Pull and hold the wand until the shade has reached the upper limit. If the shade moves in the opposite direction release the wand and pull and hold again.

Adjust until the desired upper limit has been reached.

Save the position by pushing the button until the shade moves up and down.

THE UPPER LIMIT IS NOW SET.

DELETE END LIMITS:

Hold the button for approximately 10 seconds, after 5 seconds the shade will move up and down. Keep pushing the button until the shade moves up and down again.

Repeat steps above to save new end limits.

OPERATING INSTRUCTIONS

Pull the wand slightly to start or stop the shade.

OPTIONAL: FAVORITE POSITION

SET THE FAVORITE POSITION

Pull the wand slightly to start or stop the shade.

Pull and hold the chain for approximately 7 seconds until the shade moves up and down.

Go to any position other than the saved favorite position.

RECHARGE BATTERY

Blinking red during operation;
Charge the battery.

Blinking green; Battery is charging.

Continuously green; Battery is fully charged.

TROUBLESHOOTING

Shade is rolling up on tube unevenly or tracks:

If you notice the material winds unevenly and begins to track or telescope to one side check to ensure that the shade is level. If the shade is not level, remove it from the mounting brackets and shim or reinstall the brackets, as necessary.

IMPORTANT NOTE: Operating a shade that is not level will result in damage to the material. Damage caused by operating an unleveled shade is not covered under our normal warranty.

SECTION 1
MOTORIZED OPERATED - OPEN ROLL

If your shades were ordered with Deco Fascia, proceed to Section 2

STEP 1

INSTALLATION BRACKET PLACEMENT

Using the Drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

STEP 2

SHADE PLACEMENT

Once the brackets are secured and level, locate the Bearing Pin from the parts sent with your shade.

Insert the Bearing Pin on to the left side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the left side of the shade into the Bearing Pin (as shown).

Insert the opposite end of the shade onto the bracket as shown.

STEP 3

ADDITIONAL ITEMS

If your shade was ordered as Outside Mount, locate the bracket covers and install them onto the installation brackets as shown.

Proceed to Programming Instructions included with your order.
QR codes to online guides can be found at the end of this guide.

SECTION 2

MOTORIZED OPERATED - WITH DECO FASCIA

If your shades were ordered Open Roll, refer back to Section 1

STEP 1

DECO FASCIA BRACKET INSTALLATION

INSIDE MOUNT

(Typical installation)

Locate the deco fascia L-brackets and attach them to the magnet clips located on the backside of the deco fascia.

The magnet clips arrive preattached and evenly spaced but can be adjusted if they have shifted during shipping.

Place the deco fascia in the opening positioning it so it is flush with the frontside of the window frame.

Using a drill, secure the deco fascia L-brackets with the supplied screws.

Be sure to check that they are level.

Remove the deco fascia from the opening and move on to shade bracket installation.

OUTSIDE MOUNT

(Requires T-Bracket Installation)

Using the magnet clips attached to the backside of the deco fascia as your guide, mark where the magnet deco fascia T-bracket will need to be installed.

Using a drill secure the white plastic outside mount T-bracket (shown) to the opening. Be sure to check that they are level.

Move on to shade bracket installation.

STEP 2**INSTALLATION BRACKET PLACEMENT**

Using the drill, secure the roller shade installation brackets with the supplied screws (as shown).

Be sure to check that they are level.

If shade was ordered as Outside Mount, attach the supplied screw covers on to the bracket for a finished look.

**STEP 3****SHADE PLACEMENT**

Once the brackets are secured and level, locate the Bearing Pin from the parts sent with your shade. Insert the Bearing Pin on to the left side bracket (as shown). You should hear a click once it is securely installed.

Grab the roller shade and insert the left side of the shade into the Bearing Pin (as shown).

Insert the opposite end of the shade onto the bracket as shown.

STEP 4

DECO FASCIA INSTALLATION

INSIDE MOUNT

Inside mounted deco fascia can be installed by placing the magnet receiver (already attached) onto the magnet catch plates on the front of the installed brackets.

OUTSIDE MOUNT (*if ordered*)

Use the white plastic L-bracket (shown) and insert at the top of the fascia (as shown). Push in lightly to turn the installation bracket on a 90° angle until is secured (facing up as shown). Slide the L-bracket on to the already installed T-bracket.

OUTSIDE MOUNT (*if ordered*)

Attach the return with the supplied connector.

- Metal returns will include a plastic corner connector (*outside mount only*)
- Plastic returns simply snap on the end of the fascia (*inside mount shade with outside mounted fascia*)

Plastic return installation

Metal return installation

Proceed to Programming Instructions included with your order. QR codes to online guides can be found at the end of this guide.

TROUBLESHOOTING

Shade is rolling up on tube unevenly or tracks:

If you notice the material winds unevenly and begins to track or telescope to one side check to ensure that the shade is level. If the shade is not level, remove it from the mounting brackets and shim or reinstall the brackets, as necessary.

IMPORTANT NOTE: Operating a shade that is not level will result in damage to the material. Damage caused by operating an unleveled shade is not covered under our normal warranty.

1. Install the Shade and Lower the Shade

Note: For instructions on how to install the shade – refer to the provided *Roller Shades Installation instructions*. Once the shade has been installed, lower the shade to rest on the window sill.

2. Prepare the Privacy Strips

Note: Before installing your privacy strips, determine if you will be mounting the product in front or behind the material.

First, Measure the height of the opening where side channel is to be installed and verify that each piece fits in the intended space. Adjust with a saw if needed.

Important: For Cassettes, Fascias and Pocket installations, measure from the bottom of the top treatment to the window sill.

3. Install the Privacy Strip

Once mounting locations is determinated, install your privacy strips with the provided installation screws, evenly spaced.

Note: Raise the shade as needed, as to not damage the fabric.

Child Safety

1. Installer le store et abaisser le store

Remarque : Pour les instructions pour installer le store - référez aux instructions fournies *Instructions d'installation pour stores à enrouleur*. Lorsque le store est installé, abaissez le store pour qu'il repose sur le rebord de la fenêtre.

2. Préparer les glissières

Remarque : Avant d'installer vos glissières, déterminez si vous allez monter le produit en avant ou en arrière le matériel.

Premièrement, mesurez la hauteur de l'ouverture où la glissière latérale sera installée et vérifiez que chaque pièce correspond avec l'espace prévu. Ajustez avec une scie si nécessaire.

Important : Pour les installations avec une cassette, bordure ou caisson, mesurez à partir du bas du traitement supérieur au rebord de la fenêtre.

3. Installer les glissières

Lorsque les endroits de montage sont déterminés, installez vos glissières avec les vis d'installation fournies, en espaces uniformes.

Remarque : Soulevez le store comme nécessaire, pour ne pas endommager le tissu.

Sécurité des enfants

⚠ WARNING

STRANGULATION HAZARD –
Young children can be strangled by cords.
Immediately remove this product if a cord longer than 22 cm or a loop exceeding 44 cm around becomes accessible.

Rev 7/21 Print 7/21

⚠ MISE EN GARDE

RISQUE D'ÉTRANGLEMENT –
Les enfants en bas âge peuvent s'étouffer avec des cordes. Enlevez immédiatement ce produit si une corde mesurant plus de 22 cm devient accessible ou si le contour d'une boucle de plus de 44 cm devient accessible.
