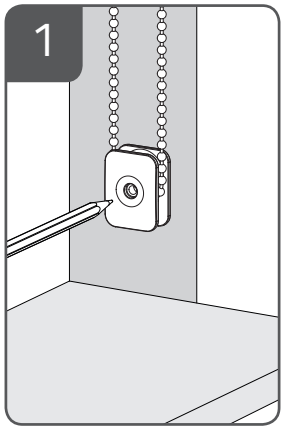
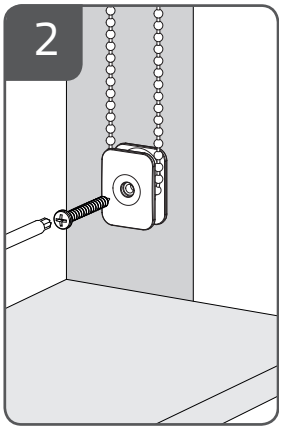
WARNING

The Safety Device is a fixed tension device for operating ball-chains that form a continuous loop. This device must be applied in chain loops that do not have a breakaway design. The safety device prevents free-hanging loops in operating chains. Install the safety device at the maximum distance possible from the control mechanism to prevent slack in the loop. Upon delivery to the end user, the device must be attached to the chain. The tensioning device is provided with fasteners for installation to wooden wall substrates. Please read the following information when installing the tensioning device. For other wall types please use appropriate screws that are suitable for your wall.

A: Inside Mount: Fully recessed shade and safety device

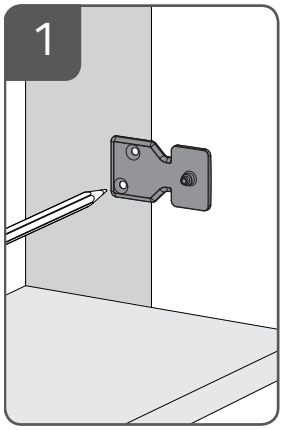


Position so there is no slack within the loop.

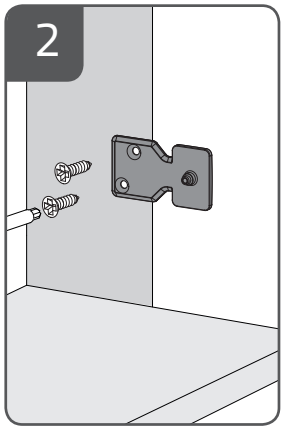


Mount the safety device.

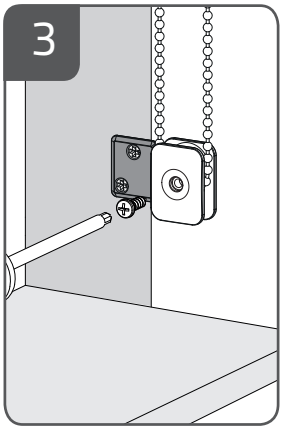
B: Inside Mount: Partially recessed shade and safety device



Position so there is no slack within the loop.

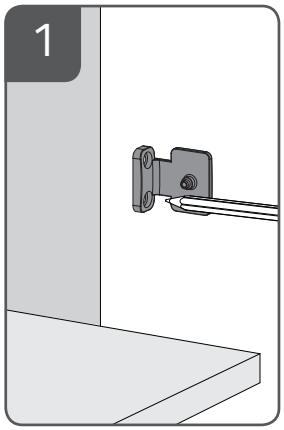


Secure mounting bracket.

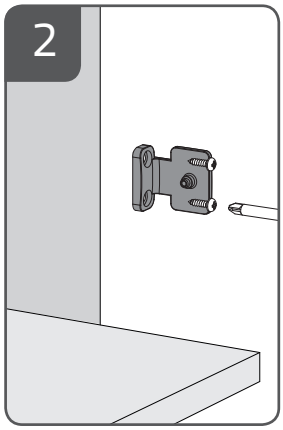


Mount safety device to the mounting bracket.

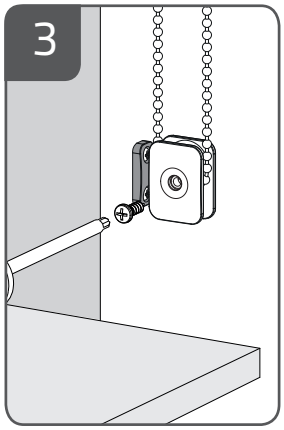
C: Outside Mount: Shade and safety device outside window



Position so there is no slack within the loop.

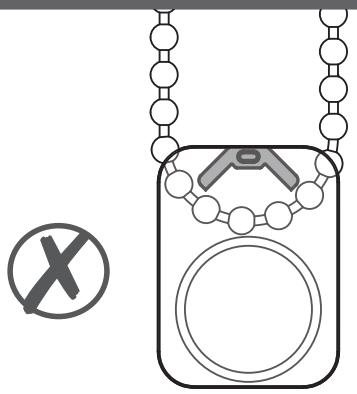


Secure mounting bracket.

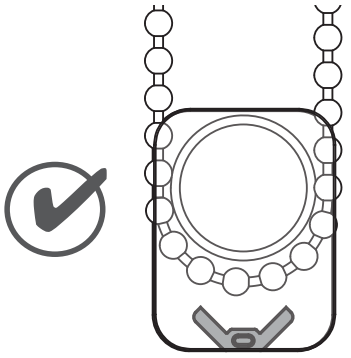


Mount safety device to the mounting bracket.

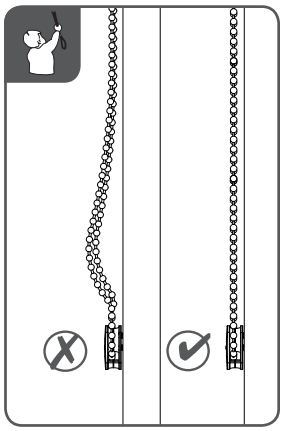
INSTALLATION TIPS



Shade will not operate if safety device is upside down.



Position the chain around the circular side of the safety device before installing.



Install the safety device so there is no slack in the chain loop.
